

3. Generate visual analytics for a given business tasks and data using Tableau Public.

1. TOOLS REQUIRED

- Tableau Public
- Sample Superstore Dataset (Sample - Superstore.xls)

2. BUSINESS TASK

We assume the business wants to understand:

Business Questions

1. Which **regions** generate the highest sales?
2. What are the **monthly sales trends**?
3. Which **categories** contribute the most to sales?
4. Who are the **top customers** by sales?
5. Which **products** are the most profitable?

Your task:

👉 Create one visualization for each question.

3. DATASET DESCRIPTION

Important columns used:

- Order Date
- Region
- Category
- Sub-Category
- Customer Name
- Product Name
- Sales
- Profit
- Quantity

4. PROCEDURE (STEP-BY-STEP)

STEP 1 — Open Tableau & Load Dataset

1. Open **Tableau Public**
2. Click **Microsoft Excel**
3. Select Sample - Superstore.xls
4. Drag the **Orders** sheet to the canvas
5. Confirm data types:
 - Order Date → Date
 - Sales → Number
 - Profit → Number

STEP 2 — Visualization 1: Sales by Region (Horizontal Bar Chart)

Business Question:

Which region sells the most?

Steps:

1. Create **New Worksheet** → rename **Sales by Region**
2. Drag **Region** → Rows
3. Drag **Sales** → Columns
4. Click **Sort** (descending)
5. Marks card → **Bar**
6. Drag **Profit** → Color (optional: see profit shading)

 *This chart shows which region performs best.*

STEP 3 — Visualization 2: Monthly Sales Trend (Line Chart)

Business Question:

How do sales change month by month?

Steps:

1. New worksheet → rename **Monthly Sales Trend**
2. Drag **Order Date** → Columns → change to **Month**
3. Drag **Sales** → Rows
4. Marks card → **Line**

 *This shows seasonality, peaks, dips.*

STEP 4 — Visualization 3: Sales by Category (Pie or Donut Chart)

Business Question:

Which product category performs best?

Steps:

1. New worksheet → rename **Category Sales**
2. Drag **Category** → Color
3. Drag **Sales** → Angle
4. Marks → **Pie**
5. Drag **Sales** → Label → set to **Percentage**

 *Shows share of sales across categories.*

STEP 5 — Visualization 4: Top 10 Customers (Bar Chart)

Business Question:

Who are the best customers?

Steps:

1. New worksheet → rename **Top Customers**
2. Drag **Customer Name** → Rows
3. Drag **Sales** → Columns
4. Right-click Customer Name → Filter → **Top** →
 - **Top 10 by SUM(Sales)**
5. Sort descending
6. Optionally color by **Profit**

🎨 Shows your highest-value customers.

STEP 6 — Visualization 5: Profit by Product (Tree Map)

Business Question:

Which products generate the most profit?

Steps:

1. New worksheet → rename **Product Profit**
2. Drag **Product Name** → Label
3. Drag **Profit** → Size
4. Marks → **Treemap**

🎨 Big squares = high profit items.

Output :-
